

CG-35-2

Transport box and wall box for insulating gloves

Application:

- Plastic box for insulating gloves from class 00 to 4.
- Ensure the gloves have a good mechanical protection against shocks and U.V. radiation.
- Box can be fixed on a wall, in a substation, or be used as a carrying box and a storage box.

Features:

- The transparent cover enables to check gloves presence.
- Ergonomic handle for an easy opening.
- Quick fixing of the gloves with a professional velcro strap to avoid any glove damage.
- Multilingual labels to stick on the cover in the appropriate area ; on these labels are written the maintenance recommendations according to IEC 60903.
