

CG-981-...

Leather overgloves for low voltage insulating gloves

Application:

- The overgloves ensure mechanical protection for insulating gloves (class 00 & 0), **CG-05** and **CG-10**.
- They are resistant to flame and contact heat of 100°C for 10 s according to EN 407.
- Velcro at the cuff adjusts the tightness of the glove to the user's hand.

Features:

- Silicone goat grain leather, Kevlar® thread stitching.
- Wide protective cuff in cowhide crust (10 cm long).
- American assembly, nested thumb.
- Adjustable width by fireproof Velcro strap mounted on leather.
- Grey color.
- Complies with standard EN 388: 2016 2122X
- Complies with standard EN 407: 2004 412X4X
- Level of dexterity according to EN 420 A1 : 5 (excellent grip)

Packaging:

- Packaging: 1 pair in a plastic bag with an instruction for use.

Network Type : LV
