

MC-14..

Capacity: diameter 10 to 24 mm

Application :

- Insulated micro-clamps for LV shunts.
- For maintenance and short-period operations.

Features :

- Maximum operating voltage : 1000 V AC - 1500 V DC.
- Body made of copper aluminium.
- Entirely insulated.

Network Type : LV

Ref	Dimensions	Weight (kg)	Voltages for use	
			Operating Voltage AC	Operating Voltage DC
MC-146	23 x 70 x 110	0.21	1 000 V	1 500 V
